

## Accessibility Policy and Beaufront First School

### Accessibility Action Plan Version

Version	Date	Description	Author	Approved	Review
V.1	November 2016	Policy reviewed by HT and Gov with respect to Equality Act 2010, using "School Bus" guide for support.	Eileen Daniel, Trish Palmer.	21.11.16	-
V. 2	March 2022	Review	E.Thorpe		May 2022

### Rationale

Beaufront First School (BFS) would wish to ensure:

- That all friends and stakeholders with disabilities and learning needs can fully participate in the school curriculum and employment opportunities.
- The physical environment, curriculum and ethos of the school supports and increases the extent to which disabled pupils, staff and visitors are able to take advantage of and contribute to all school services
- That physical and learning environments can be reasonably accessed by disabled members of the Beaufront Community to meet their needs.

### Aims

- To make everyone feel welcome
- To value all those in the Beaufront community equally
- To ensure that each and every child is at the heart of all we do and all decisions we make
- To have high expectations of all pupils
- To work to remove barriers to learning, teaching and participation in all the school offers Broad

### Guidelines

A disabled person, or person with additional or special needs, can be discriminated against in a number of ways:

1. By less favourable treatment
2. By the School failing to make 'reasonable adjustments'. School may be guilty of discrimination if they fail to take reasonable steps which lead to disabled pupils and prospective pupils being placed at a substantial disadvantage compared to non-disabled pupils.

The BFS Accessibility Action Plan will continue to review practice and use the expertise and support provided through the L.A. or other organisations as requirements change. Legislative Context. BFS (Including the Governing Body) has due regard to the duties in the Equality Act 2010. These include:

- Increasing the extent to which pupils with disabilities can participate in the school curriculum.
- Improving the environment of the school to increase the extent to which pupils with disabilities can take advantage of education and associated services.
- Improving information delivery to pupils with disabilities which is readily available to other pupils.

The above procedures will be delivered within a reasonable time, and in ways which are determined after taking into account the pupil’s disabilities (and needs) and the views of the parents/carers and pupil. BFS is aware that the LA must have regard to the need to allocate adequate resources in the implementation of the BFS Accessibility Action Plan.

Where necessary, BFS will consult with NCC to seek financial and other support.

The governing body also recognises its responsibilities towards employees with disabilities and will:

- Monitor recruitment procedures to ensure that persons with disabilities are provided with equal opportunities.
- Provide appropriate support and provision for employees with disabilities to ensure that they can carry out their work effectively without barriers.
- Undertake reasonable adjustments to enable staff to access the workplace.
